(a) $f_{\text{remin}}$ vs. $[O_2]$ [mol kg$^{-1}$].

(b) $f_{\text{remin}}$ vs. $[SO_4^{2-}]$ [mol kg$^{-1}$].

(c) $f_{\text{remin}}$ vs. $[O_2]$ [mol kg$^{-1}$].

Graphs show the relationship between $f_{\text{remin}}$ and $[O_2]$ or $[SO_4^{2-}]$ with curves indicating the changes in $f_{\text{remin}}$ as $[O_2]$ or $[SO_4^{2-}]$ vary. 

Note: ETSP and Mauritania are marked on the graph indicating specific points or regions of interest.
