

Initialized wind profiles

Wind factor near obstacles (without duplicated)

```
graph TD; A[Initialized wind profiles] --> B[1. Initial wind field calculation]; C[Wind factor near obstacles (without duplicated)] --> B; B --> D[Initialized wind field]; D --> E[2. Numerical wind solver]; E --> F[Final wind field];
```

**1. Initial wind field calculation**

Initialized wind field

**2. Numerical wind solver**

Final wind field
