

```
inline void computeNewState( State &state , const Domain &dom, const SourceSinkData &ss ){  
    for ( int j=0; j<dom.ny; j++){  
        for ( int i=0; i<dom.nx; i++){  
            // computationally intensive code to update cells  
        }  
    }  
}
```
