

Interactive comment on “qtcM 0.1.2: A Python Implementation of the Neelin-Zeng Quasi-Equilibrium Tropical Circulation model” by J. W.-B. Lin

J. W.-B. Lin

Received and published: 17 December 2008

Just one slight clarification . . . in my previous reply to C. Doutriaux, I often used the phrases “I changed, “I added,” etc. What those comments mean is that in the revised manuscript that I will submit at the end of the comment period, those changes and additions will be made. Sorry about the confusion!
