

Interactive comment on “Current status of the ability of the GEMS/MACC models to reproduce the tropospheric CO vertical distribution as measured by MOZAIC” by N. Elguindi et al.

N. Elguindi et al.

nellie.elguindi@gmail.com

Received and published: 13 July 2010

Dear Dr Boucher,

Thank you for your comments. In addition to the revisions we have made regarding the reviewer’s comments, we have also modified the manuscript to emphasize more the data assimilation technique as you suggested. I will upload a revised response to the reviewer’s which specifies these changes as well as a legible copy of the revised manuscript.

Best regards Nellie Elguindi
