## ***Interactive comment on “Wavelet-based spatial comparison technique for analysing and evaluating two-dimensional geophysical model fields” by S. Saux Picart et al.***

**S. Saux Picart et al.**

stux@pml.ac.uk

Received and published: 16 January 2012

There is indeed a mistake in the manuscript, the correct equation 8 is:

$$SS_{l,q} = 1 - \frac{MSE_{l,q}L}{2\varepsilon_q(1 - \varepsilon_q)} \quad (1)$$

However the code attached to the manuscript (as a supplement) is correct.

Thank you for pointing that out.
