Received and published: 2 September 2011

Dear Dr. Boucher,

Thank you very much for handling our paper.

Following referee’s comment, we would like to change the title from the original one to MIROC-ESM 2010: model description and basic results of CMIP5-20c3m experiments. (add 2010 after MIROC-ESM)

In addition to revisions based on referees’ comments, we would like to correct Figure 17 and corresponding descriptions in Section 4.4, which is related to model’s total ozone.

We would upload the revised manuscript soon.

C606

Best regards, Shingo Watanabe
