

***Interactive comment on “The Finite Element Sea ice-Ocean Model (FESOM): formulation of an unstructured-mesh ocean general circulation model” by Q. Wang et al.***

**I. Rutt**

i.c.rutt@swansea.ac.uk

Received and published: 4 September 2013

On behalf of the Executive Editors of GMD, please could I request that the version number of FESOM being described be incorporated into the title of the paper?

For example: "The Finite Element Sea ice-Ocean Model (FESOM) v.1.0: Formulation of an unstructured-mesh ocean general circulation model"

Many thanks.
