

Interactive comment on “TopoSCALE: deriving surface fluxes from gridded climate data” by J. Fiddes and S. Gruber

I. Rutt

i.c.rutt@swansea.ac.uk

Received and published: 4 September 2013

A message on behalf of the Executive Editors of GMD:

Since this paper describes a named method, it might be beneficial to give it a version number, in case revisions are made at a later date. This would be required if it were a model description paper, but makes sense in this case as well.

A suitable title might be "TopoSCALE v.1.0: Deriving surface fluxes from gridded climate data"

Many thanks.
