“We thank the referee 1 for their corrections.”

1)Page 2935, line 10 : A comma is required after the word 'forecasts'.

Was included the comma.

2)Page 2935, line 20: Start a new sentence after the word 'models' (new sentence would begin 'This paper proposes the development....').

OK, thank you.

3)Page 2938, lines 6-9: There does not seem to be any equation numbers for these equations.

Really we forgot the numbers of the equations, these were included.
