Received and published: 20 August 2014

We appreciate your consideration for improving the manuscript. Please fine a response to your comments.

Is auxiliary fig results from a resting atmosphere test case?

=> All results of the density current experiment are obtained in a resting atmosphere condition. This will be mentioned in the revised manuscript.

Please mention in the revised manuscript that further work will be needed to implement C1432

diffusion on horizontal surfaces.

=> We will add a discussion about the diffusion issue in the revised manuscript. Some additional comments from Referee 2

=> We acknowledge our misunderstanding. We will revise accordingly in this time.
