I believe this to be a very good, well written paper which is suitable for publication, I just have a few very minor corrections:

Page 2935, line 10 : A comma is required after the word 'forecasts'.

Page 2935, line 20: Start a new sentence after the word 'models' (new sentence would begin 'This paper proposes the development....').

Page 2938, lines 6-9: There does not seem to be any equation numbers for these equations.
