Dear authors,

In my role as Executive editor of GMD, I would like to bring to your attention our Editorial:

[http://www.geoscientific-model-development.net/gmd\\_journal\\_white\\_paper.pdf](http://www.geoscientific-model-development.net/gmd_journal_white_paper.pdf)  
<http://www.geosci-model-dev.net/6/1233/2013/gmd-6-1233-2013.html>

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the ‘Manuscript Types’ section:

C1659

[http://www.geoscientific-model-development.net/submission/manuscript\\_types.html](http://www.geoscientific-model-development.net/submission/manuscript_types.html)

In particular, for your paper it is desirable to name the model (including the version number) you actually describe and publish in this article in the title, e.g.:

“Implementation of an optimal stomatal conductance model (CABLE-2.0.1) in the Australian Community Climate Earth Systems Simulator (ACCESS1.3b)

Sincerely yours, Astrid Kerkweg
