

Interactive comment on “Improving the WRF model’s simulation over sea ice surface through coupling with a complex thermodynamic sea ice model” by Y. Yao et al.

A. Kerkweg

kerkweg@uni-mainz.de

Received and published: 7 December 2015

Dear authors,

In my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.1:

<http://www.geosci-model-dev.net/8/3487/2015/gmd-8-3487-2015.html>

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the ‘Manuscript Types’ section:

http://www.geoscientific-model-development.net/submission/manuscript_types.html
C3220

In particular, please note that for your paper, the following requirement has not been met in the Discussions paper:

- "The main paper must give the model name and version number (or other unique identifier) in the title."

Please name "HIGHTSI" and give the version numbers for WRF and HIGHTSI in the title in your revised submission to GMD.

Yours,

Astrid Kerkweg
