Received and published: 21 December 2015

Dear authors,

In my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.1:

<http://www.geosci-model-dev.net/8/3487/2015/gmd-8-3487-2015.html>

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the ‘Manuscript Types’ section:

http://www.geoscientific-model-development.net/submission/manuscript_types.html

C3429

In particular, please note that for your paper, the following requirement has not been met in the Discussions paper:

- Inclusion of Code and/or data availability sections is mandatory for all papers and should be located at the end of the article, after the conclusions, and before any appendices or acknowledgments.

You included the required information at the end of the conclusions sections. Please make the last sentence of your conclusions to an independent section with the title “Code and data availability” upon the revision of your article.

Yours,

Astrid Kerkweg
