Dear Authors

Thank you for your thoughtful response to Referee Notz. The second reviewer similarly appreciates the paper but has brought up some quite technical comments which I think deserve attention either through response or edits.

When you submit your new draft, please submit a "diffs" report (latexdiff) as well, i do not foresee such a significant rewrite as to make such a report meaningless.

Interactive comment on Geosci. Model Dev. Discuss., 8, 9707, 2015.
