The author would like to thank the reviewer for his time and effort in reviewing our manuscript. We believe some valid points were made, suggesting a major revision of the manuscript itself, with the specific demand to add more data comparing our model with other, existing models. We agree this improves the manuscript and have mostly followed the excellent suggestions.

Please find in the supplement our answers to the specific points raised by the reviewer.

Please also note the supplement to this comment:

C896
