Received and published: 24 June 2016

We thank the reviewer for their constructive comments that helped improve the manuscript. We provide an update of the manuscript with substantial revisions. These revisions include a shift of several sub-sections to the appendix.

In the revised manuscript (see author comment AC1), we marked additions to the text in blue colour and removed parts are red (except for many changes that just improved the language)

In the attached document we address each comment point-by-point
