Received and published: 24 March 2016

Dear Jorge,

Thank you for sending me those plots. The article would benefit from the inclusion of some of them. You often touch on the topic in the manuscript, but do not show results that can demonstrate your statement on this specific topic. It is not necessary that you add an entire discussion of it; one, as long as significant, plot would support the text.

Thank you.

Best, Simone Marras
