Answer to the Executive Editor's comment

Dear authors,
In my role as Executive editor of GMD, I would like to bring to your attention our Editorial
version 1.1:
http://www.geosci-model-dev.net/8/3487/2015/gmd-8-3487-2015.html
This highlights some requirements of papers published in GMD, which is also available
on the GMD website in the 'Manuscript Types' section:
http://www.geoscientific-model-development.net/submission/manuscript_types.html
In particular, please note that for your paper, the following requirement have not been
met in the Discussions paper:

> • "The main paper must give the model name and version number (or other unique
> identifier) in the title."

Please add the name and version number of your model / tool r.slopeunits to the title.
Additionally, I'd like to point out, that the Code Availability Section is not an Appendix
but a Section of its own. Please correct both mentioned items in the revised submission
of your article.
Yours,
Astrid Kerkweg

Dear Dr. Kerkweg,

thanks reviewing our manuscript and pointing out the corrections needed. We added our software name and version number (r.slopeunits v1.0) to the title, and changed the "Code Availability" Section from Appendix to a regular Section.

M. Alvioli, on behalf of all the Authors.
