Dear Ms. Astrid Kerkweg,

thank you for this notice.

The version number of ALARO is 0, hereafter called ALARO-0 and the version number of SURFEX version 5 has now been added as well to the title: “Reinitialised versus continuous regional climate simulations using ALARO-0 coupled to the land surface model SURFEXv5”.

The manuscript version with the updated title is supplemented as .pdf.

Kind regards,

Julie Berckmans and co-authors
