Received and published: 30 March 2016

Dear authors,

In my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.1:

<http://www.geosci-model-dev.net/8/3487/2015/gmd-8-3487-2015.html>

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the ‘Manuscript Types’ section:

http://www.geoscientific-model-development.net/submission/manuscript_types.html

In particular, please note that for your paper, the following requirement has not been met in the Discussions paper:

C1

- "The main paper must give the model name and version number (or other unique identifier) in the title."

Please add the name (LS-ADP ?) and a version number for your algorithm in the title upon your revised submission to GMD.

Yours,

Astrid Kerkweg
