

Interactive comment on “Overview of the Global Monsoons Model Inter-comparison Project (GMMIP)” by Tianjun Zhou et al.

Dr Turner

a.g.turner@reading.ac.uk

Received and published: 21 April 2016

Dear Astrid,

We acknowledge the request for a uniform naming convention for the manuscripts for all CMIP-endorsed MIPs associated with CMIP6. We also note the need to include a version number relating to the design.

We will make these changes during the manuscript revision process after the closure of the first round of open peer review.

On behalf of the authors,

Dr Andy Turner.
