Received and published: 14 September 2016

I request to delay the resubmission of the manuscript to October 31, 2016. We are in the process of extending the years studied of 2002-2013 to 2002-2015. It also takes longer to archive the dataset, which depends on the schedule of the Forest Service Archive Office.

Please let know your decision soon. Thanks a lot. Wei Min Hao
