

***Interactive comment on* “Evaluation of high-resolution GRAMM/GRAL NO_x simulations over the city of Zurich, Switzerland” by Antoine Berchet et al.**

Antoine Berchet et al.

antoine.berchet@empa.ch

Received and published: 9 August 2017

We acknowledge the comments on editorial requirements by GMD.

The title of the final version of our manuscript is modified to: "Evaluation of high-resolution GRAMM/GRAL (v15.12/v14.8) NO_x simulations over the city of Zurich, Switzerland"

In addition, as suggested, we made our Python library publicly available through the service Zenodo and reference to the associated doi in the Section "Code and Data availability".
