Received and published: 20 July 2017

Dear Editor,

Thank you for your comment, also the handling editor David Ham mentioned this as something to be done after the review process. FLEXPART is a community software, it has been openly available for over 20 years. The FLEXPART community cares to make the model easily accessible. For now, I will upload a tar ball with the exact version to the communities website (flexpart.eu), we can also include it as a supplementary material to the manuscript. We will be discussing the DOI option within the community.

C1

Kind regards

Sabine Eckhardt
