Received and published: 18 July 2017

Dear Authors,

I'd like to thank you for making the code publicly available. However, Github branches are no permanent archives. Therefore the executive Editors of GMD highly recommend to make the exact code version, to which the paper refers to, available via an archiving system providing a DOI (e.g. Zenodo). In this way, the code version and the paper are perfectly linked to each other.

Best, Astrid Kerkweg
