Dear Astrid Kerkweg,

Thank you very much for your comments, which we would like address here.

1. We will change the title from "A CF data model and implementation" to:

    A data model of the Climate and Forecast metadata conventions (CF-1.6) with a software implementation (cf-python v2.0)

2. I have created a DOI for the cf-python software (doi.org/10.5281/zenodo.832255) and will replace the whole of section 8 (Code availability) with:

    The code of cf-python is open-source and freely downloadable at doi.org/10.5281/zenodo.832255. It is also available from its on-

    line repository at https://bitbucket.org/cfpython/cf-python and from the Python package index at https://pypi.python.org/pypi/cf-python.

I hope that these changes now meet the requirements.

All the best,

David Hassell
