Dear Lutz Gross

Thank you for your comment concerning code and data accessibility. Indeed, the data used for creating the plots in the manuscript can easily be made accessible and I am happy to share that with the community. I attached all the required data to this comment and will add it as supplement to the final version of the manuscript.

Use of the ECHAM-HAMMOZ software is permitted for research and education. It is

explicitly prohibited to use it or parts of it, whether modified or not, for commercial purposes. Therefore it cannot be made publicly available, which will be stated more precisely in the final version of the manuscript.

Kind regards Remo Dietlicher
