

A fully consistent and conservative vertically adaptive  
coordinate system for SLIM 3D v0.4 with an application to  
the thermocline oscillations of Lake Tanganyika

gmd-2017-221

Philippe Delandmeter

March 4, 2018

Dear Editor,

Indeed, in previous revision I changed “level height” to “level thickness” in the caption of Figure 19, but I forgot to modify the colour bar name. It is now fixed.

Sincerely yours,

Philippe Delandmeter
