Received and published: 11 November 2017

We thank the referee reviewer very much for reading our work and insightful comments. Those comments really let us know the unclear part of our manuscript and help us a lot to improve our manuscript.

Since the manuscript is still under discussion phase, we would like to give the quickest feedback to explain some most important issues which are missing in the manuscript. For the details of the response comment, please check the supplement.

Please also note the supplement to this comment:
