Dear authors,

in my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.1:

<http://www.geosci-model-dev.net/8/3487/2015/gmd-8-3487-2015.html>

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the ‘Manuscript Types’ section:

[http://www.geoscientific-model-development.net/submission/manuscript\\_types.html](http://www.geoscientific-model-development.net/submission/manuscript_types.html)

In particular, please note that for your paper, the following requirements have not been

C1

met in the Discussions paper:

- "The main paper must give the model name and version number (or other unique identifier) in the title."

Thus please add the model name (and/or its acronym) and the version number in the title of your article in your revised submission to GMD. E.g the title could be., "Isoprene derived secondary organic aerosol in the global aerosol chemistry climate model ECHAM(v6.3)-HAM(v2.3)MOZ(v1.0) "

Yours,

Astrid Kerkweg
