

Interactive comment on “EcoGENIE 0.1: Plankton Ecology in the cGENIE Earth system model” by Ben A. Ward et al.

L. Gross

l.gross@uq.edu.au

Received and published: 13 December 2017

As explained in https://www.geoscientific-model-development.net/about/manuscript_types.html GMD is encouraging that authors upload the program code of models (including relevant data sets) as a supplement or make the code and data accessible through a DOI (digital object identifier) for the exact model version described in the paper. In case your institution does not provide the possibility to make data accessible through a DOI you may consider other providers (eg. zenodo.org or CERN) to create a DOI.
