Received and published: 10 January 2018

I am pleased to confirm that the code is now available to access from GitHub. The code pertaining to this release is available from:

<https://github.com/OMS-NetZero/FAIR/archive/v1.1.tar.gz>

and the project homepage is:

<https://github.com/OMS-NetZero/FAIR>

Alternatively the software can be installed from the Python Packages index from a Linux/GNU command line:

```
pip install fair
```
