

## ***Interactive comment on “Coupling the Glacial Systems Model (GSM) to LOVECLIM: description, sensitivities, and validation” by Taimaz Bahadory and Lev Tarasov***

**A. Kerkweg**

kerkweg@uni-bonn.de

Received and published: 31 January 2018

Dear authors,

in my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.1:

<http://www.geosci-model-dev.net/8/3487/2015/gmd-8-3487-2015.html>

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the ‘Manuscript Types’ section:

[http://www.geoscientific-model-development.net/submission/manuscript\\_types.html](http://www.geoscientific-model-development.net/submission/manuscript_types.html)

C1

In particular, please note that for your paper, the following requirement has not been met in the Discussions paper:

- "The main paper must give the model name and version number (or other unique identifier) in the title."

Please add the version numbers for LOVECLIM and GSM to the title upon your revised submission to GMD.

Yours,

Astrid Kerkweg
