Received and published: 15 March 2018

As explained in [https://www.geoscientific-model-development.net/about/manuscript\\_types.html](https://www.geoscientific-model-development.net/about/manuscript_types.html) GMD does not see putting program code and data on author's own website as a mean for persistent access. Authors should consider improving the availability with a more permanent arrangement for instance to upload the code as a supplement or to provide a DOI to site providing permanent access, e.g Zenodo.
