Thus, the set  $N$  is given by (Gamma, 2000):

$$N = \{i | \gamma_i \geq (\gamma_{max})^a \text{ for } i \in \{1, 2, 3 \dots 8\}\} \quad (1)$$

if  $\gamma_{max} < 1$  and

$$N = \{i | \gamma_i = \gamma_{max} \text{ for } i \in \{1, 2, 3 \dots 8\}\} \quad (2)$$

if  $\gamma_{max} \geq 1$ .
