

Dear Editor

We have made no substantive changes to the main text of the manuscript but the follow modifications were made.

- 1) The affiliation of Flurin Babst was revised.
- 2) The acknowledgements were revised to include individual award numbers that supported the work

Acknowledgements.

This study was supported by the DOE Regional and Global Climate Modeling DE-SC0016011, the NSF Macrosystems Award 1241851 and 1241930 and by the University of Arizona Water, Environment, and Energy Solutions (WEES) 578 and Sustainability of Semi-Arid Hydrology and Riparian Areas (SAHRA) programs. The US-NR1, US-UMB, and US-MMS AmeriFlux sites are currently supported by the US DOE, Office of Science, through the AmeriFlux Management Project (AMP) at Lawrence Berkeley National Laboratory under award numbers 7094866, 7096915 and 7068666, respectively. AmeriFlux site US-MOz is supported by the U.S. Department of Energy, Office of Science, Office of Biological and Environmental Research Program, through Oak Ridge National Laboratory's Terrestrial Ecosystem Science (TES) Science Focus Area (SFA). ORNL is managed by UT-Battelle, LLC, for the U.S. DOE under contract DE-AC05-00OR22725. FB acknowledges funding from the Swiss National Science Foundation (#P300P2_154543) and the EU-Horizon 2020 Project "BACI" (#640176).

Best wishes,

David Moore, Francesc Montane
