Interactive comment on "Improvements to the WRF-Chem model for quasi-hemispheric simulations of aerosols and ozone in the Arctic" *by* Louis Marelle et al.

A. Kerkweg

kerkweg@uni-bonn.de

Dear authors,

in my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.1:

http://www.geosci-model-dev.net/8/3487/2015/gmd-8-3487-2015.html

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the 'Manuscript Types' section:

http://www.geoscientific-model-development.net/submission/manuscript_types.html

In particular, please note that for your paper, the following requirement has not been met in the Discussions paper:

- "The main paper must give the model name and version number (or other unique identifier) in the title."

Please add a version number for WRF-Chem in the title upon your revised submission to GMD.

Yours,

Astrid Kerkweg
