Thank you for your helpful comment, encouraging me to use the latest and most comprehensive version of the GLODAP database and the gridded product, and also pointing out an out-of-date link.

In the revised manuscript I have used GLODAPv2 for all comparisons of DIC, and also for the newly-added comparisons of Total Alkalinity. I have also updated the references and the links in the text, as advised, and removed the sentence about the data product not including the Arctic.
