It would be helpful for the reader is the link to the exact code version https://github.com/wde0924/X-STILT/releases/tag/v1.1 is references in the paper. As explained in https://www.geoscientific-model-development.net/about/manuscript_types.html the preferred reference to this release is through the use of a DOI which is then cited in the paper. For projects in GitHub a DOI for a released code version can easily be
