Dear authors,

in my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.1:

<http://www.geosci-model-dev.net/8/3487/2015/gmd-8-3487-2015.html>

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the ‘Manuscript Types’ section:

[http://www.geoscientific-model-development.net/submission/manuscript\\_types.html](http://www.geoscientific-model-development.net/submission/manuscript_types.html)

In particular, please note that for your paper, the following requirement has not been

met in the Discussions paper:

GMDD

- "The main paper must give the model name and version number (or other unique identifier) in the title."

Please add a version number for the software package TropD in the title upon your revised submission to GMD.

Yours,

Astrid Kerkweg
