Dear professor,

In the previous response, I forgot to revise the abstract and conclusion parts to be consistent with other modifications in the manuscript. I'm really sorry for the mistake. The attachment in this response contains the same authors' response and the correct manuscript. We followed your advice to revise the explanation of the inter-model differences in the OGCM replacement case, and we realized that the surface evaporation

is one part of the changes induced by ocean advection. Previous studies also support this conclusion.

GMDD

Thank you very much for your constructive comments.

Best regards

Gui Shu
