Received and published: 2 October 2018

Dear editor,

We received the comments from the executive editor and the two referees on our manuscript “Modeling the effects of litter stoichiometry and soil mineral N availability on soil organic matter formation” (gmd-2018-173). We are very grateful for their constructive comments and suggested amendments. We have carefully studied them, and revised our manuscript accordingly. As a consequence, our manuscript has been considerably improved.
