Dear Ms Kerkweg,

Thank you for bringing that issues to our attention. We will definitely add the version number (v1.0) to the title of the paper.

Regarding the code availability, we have just indicated the code repository url and the version number, whereas we could have provided the direct link to the permanently accessible code release v1.0.0:

https://github.com/CLIMADA-project/climada_python/releases/tag/v1.0.0

We are aware that GitHub does not provide DOIs. Since we want to promote the use

of the latest version of the code, we did not have in mind to generate a DOI for the first version of the code. However, if it is really necessary for this publication, we are willing to do it. Please let us know if this is really necessary.

Best wishes,

The authors
