Dear Editor,

First of all, we want to thank you for considering and accepting our paper. We are also indebted to Dr Knut-Frode Dagestad and Dr Joakim Kjellsson for their constructive comments.

Please find enclosed the sources of our manuscript “The Parcels v2.0 Lagrangian framework: new field interpolation schemes”. We haven’t changed anything from the accepted version except the following points:

- Parcels zenodo link: now official v2.0.0 version (we were waiting for the accepted paper. Previous link was pointing to the v2.0.0.beta version);
- Zenodo link to the scripts used in this paper. Also passed from beta to released version, even if the code didn’t change since last time;
- We added an url to the NEMO data that we used, which were previously not publicly available.

Yours faithfully,

Philippe Delandmeter and Erik van Sebille
