

Reviewer's comment:

It would be better if the authors give the regressed space–time evolution of precipitation and 850 hPa wind with periods of 20–70 days instead of 30–80 days in Fig. 6 and 7.

We modified the filtering window accordingly and replaced Figs 6 and 7 with plots based on 20–70 day bandpassed data. '30–80' was replaced with '20–70' in the text. No other changes were required as the modification did not affect any results.
