

Interactive comment on “Bayesian inference of earthquake rupture models using polynomial chaos expansion” by Hugo Cruz-Jiménez et al.

T. Poulet (Editor)

thomas.poulet@csiro.au

Received and published: 21 April 2018

Dear authors,

Please note GMD’s strong preference for the code to be uploaded as a supplement or to be made available at a data repository with an associated DOI (digital object identifier) for the exact model version described in the paper. Could you please add this modification to your manuscript?

Regards,

Thomas Poulet.
