Dear authors,

please note, that if only one model is concerned, the title of a GMD manuscript should state the model name (or its acronym) and a version number. These are also important to know in the case of an evaluation, as different versions might perform differently for the same evaluation procedure. Therefore please change the title of your manuscript accordingly upon revision; e.g., Evaluation of ECMWF IFS (v X.Y) operational model forecasts of aerosol transport in using ceilometer network measurements.
