Received and published: 22 June 2018

Link to the tuning code provided in the manuscript failed [22-6-2018]. Also:

As explained in https://www.geoscientific-model-development.net/about/manuscript_types.html GMD is encouraging that authors upload the version of the program code of model described in manuscript (including relevant data sets) as a supplement or make the code and data available at a data repository preferable with an associated DOI (digital object identifier). Download from an institutional or personal web page is not encouraged but authors can still provide a reference to their website for newer versions or further information.
